UNIVERSITATEA DIN CRAIOVA

HEINNOVATE

Using the HEInnovate self-assessment tool, we identified the innovation strengths and weaknesses and designed a 2-year Joint Innovation Vision Action Plan (IVAP).

Our IVAP focuses on transforming higher education institutions in terms of institutional commitment to innovation, strengthened partnerships in the knowledge triangle and improving innovation and entrepreneurship education.

PHASE 1

2. Promoting the project among students and teaching staff at the University of Craiova

3. Recruitment and selection of the target group.

4. The people from the target group were involved in training activities in the field of entrepreneurship and innovation;

5. Two companies were selected that received specialized consulting in order to develop the business (two experts in entrepreneurship are employed within the project)

6. The institutional premises for the implementation and development of the IVAP strategy were created

7. In order to develop the knowledge triangle, the activities coordinator of the University of Craiova initiated a meeting with representatives of the business environment from the S-V Oltenia region, during which the project activities were presented and the need for partnerships in order to make teaching and learning activities more efficient research.

8. The steps necessary to create an interdisciplinary research laboratory have been initiated;

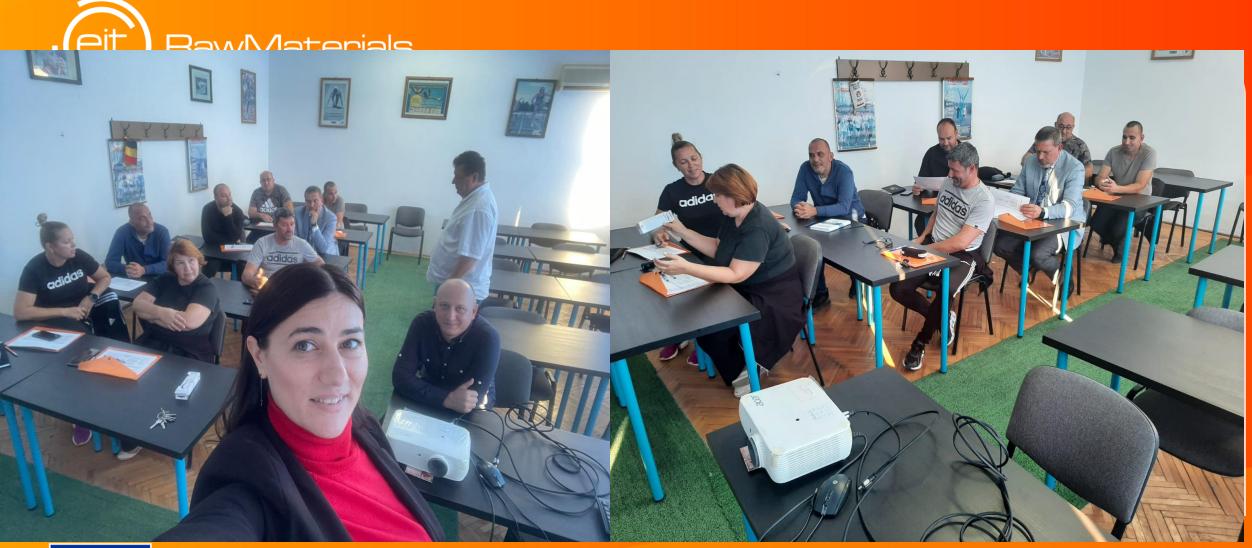

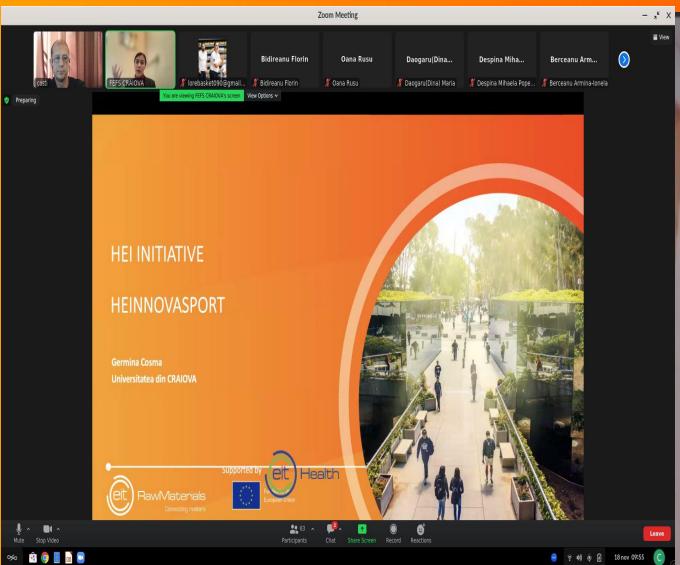

Funded by the European Union

2 signed partnership with NIH:

- Erasmus

SMOGGIE-CO₂ - MONITOR COMPACT AUTOMAT PENTRU CALITATEA AERULUI

a [5a] versiune hardware

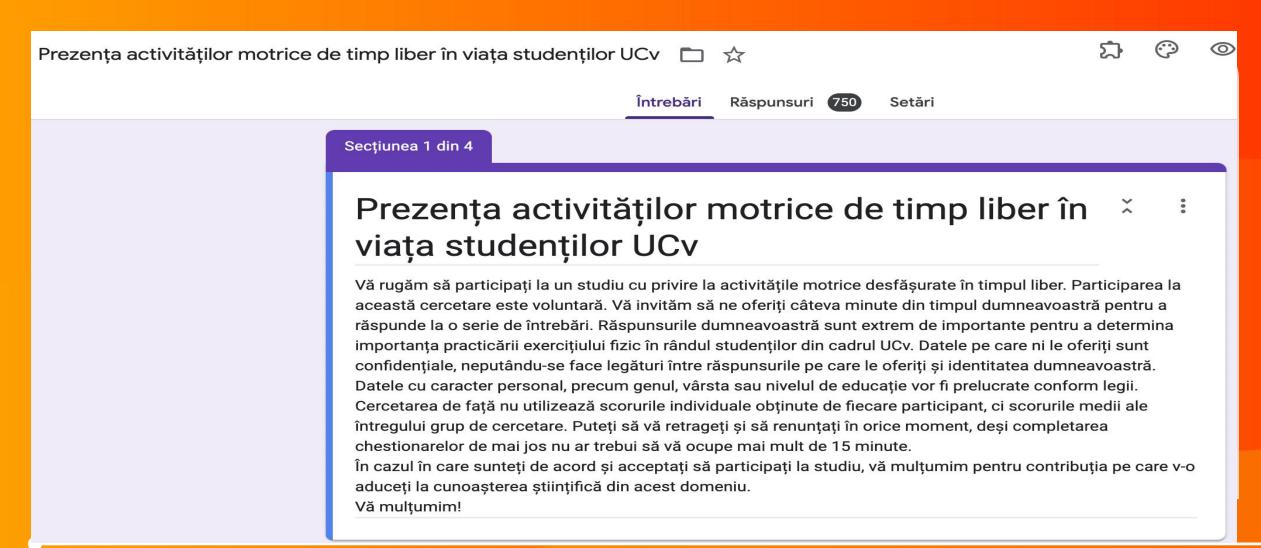

Inovația se află în centrul proiectului uRADMonitor pur și simplu pentru că folosim cele mai noi și cele mai bune tehnologii în senzori și comunicații. Acest lucru ne împinge eforturile de dezvoltare pentru a ne îmbunătăți în mod constant produsele. Pentru SMOGGIE, în doar un an am iterat prin 5 variante hardware distincte și aceasta este cea mai recentă!

SOCIOLOGICAL QUESTIONNAIRE

PHASE 2 - WORKSHOP MARCH 2023

Innovation and entrepreneurship in sports science

The Faculty of Physical Education and Sport (FEFS) organized on Thursday, March 23, 2023, the workshop "Innovation and entrepreneurship in Sports Science

INTERNATIONALIZATION

Advanced sports equipment: innovation or technological doping?

The meeting of sports specialists also benefited from the presence of a personality in the field of biomechanics - university professor Toni Arndt from the Swedish School of Sport and Health Sciences in Stockholm, former president of the International Society of Biomechanics.

The event was organized within the HEInnovaSport Consortium.

Professor Toni Arndt had a meeting with the UCV management and visited INCESA laboratories.

COLLABORATION

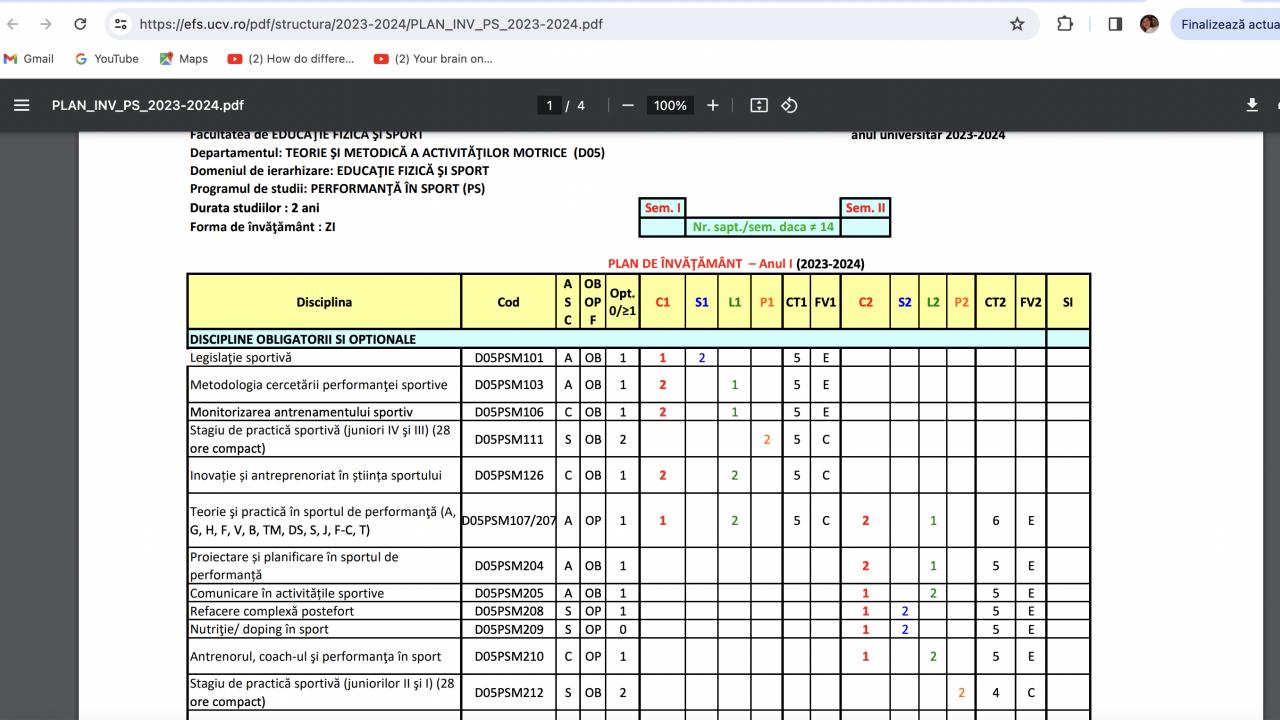

We created a collaboration protocol between the University of Craiova and IPA SA (design and automation institute) in order to ensure a collaboration in the field of student internship.

We sign an Erasmus + Inter-institutional agreement with Swedish School of Sport and Health Sciences, GIH, in order to cooperate for the exchange of students and/or staff in the context of the Erasmus+ program.

EVENTS

The OlteniaDA team, putting into practice the entrepreneurial skills acquired within HEInnovaSport Project!

University of Craiova with the support of the OlteniaDA team (CRAF project) showcased the studets entrepreneurial skills acquired within the HEInnovaSport grant.

RUNNING RACE EVENT

Because one of the objectives of the HEInnovaSport project is aimed at fighting sedentary lifestyles, which is a major risk factor for physical and mental health, OlteniaDA organised a sport event in the Youth Park, Craiova

EVENTS

As part of the "Easter Fair" organized by the City Hall of Craiova, the Oltenia team carried out the activity "Health Celebration - Movement Fair".

The volunteers organized application routes and many other games for children with the aim of promoting a healthy lifestyle through movement.

Evaluation and monitoring of sports activities

25 Views

Part of: BIOTECHNOLOGY AND BIOENGINEERING

Location: Craiova, Romania

The InnovaSport Craiova Interdisciplinary Laboratory for evaluation and monitoring sports activities was created within the framework of the European project "HElnnovaSport - Building innovation capacity and fostering entrepreneurship in sports science higher education institutions", which has among its objectives the development of interdisciplinary support structures for the stimulation innovation. The laboratory brings together specialists from 8 different fields that interrelate with sports performance, with sports for all or with physical exercise as a complex way to promote a healthy living.
